

Symmetrical Thin Rib Standing Seam

Mini-Batten

Batten Clip
Seamed Panels

Mini-Batten is a snap-on batten rib standing seam metal roof system with foldover hidden clips and a slim look. We provide Mini-Batten custom cut to the inch per specifications. Any length is available from 5' up to 45'. Mini-Batten's design features 1" or 1.5" high ribs, spaced 12", 16" or 18" on center. Thickness options include 26 and 24 gauge as standard and 22 gauge as optional.

Mini-Batten

Commercial

Mini-Batten is primarily chosen as a commercial panel and is popular for mansard and steep-slope roofs.

A curved option is available with a minimum order quantity.

Simple Transitions

Because the batten ribs are applied separately, Mini-Batten is simple and seamless to install on roofs with one or more slope transition. Simply cut the ribs and install panels, then snap on the batten ribs afterwards.

Standing Seam

You get all the great benefits of a steel standing seam system: longevity, strength, beauty, and peace of mind. Mini-Batten will last longer than alternative roofing systems, at a lower cost per year of use.

- Available in 50 Attractive Colors
- Energy Star Rated on All Colors
- Installs over Solid Decking
- Minimum Slope: 3:12
- Finish Options: SMP, Kynar 500, ACG Galvalume

Symmetrical Thin Rib Standing Seam

Advanced Protective Coatings

Mini-Batten is protected by baked on enamel paint: tough for installation, resistant to fading, and Energy Star® reflectivity to save on utility bills.

Paint: Durable baked on paint offers a permanent finish, easily lasting 40+ years. This ensures protection and beauty for years to come.

Galvalume: Under the paint, Galvalume (55% zinc, 45% aluminum) provides lasting corrosion protection, even if paint is scratched during installation.

Steel: A heart of high-tensile steel guarantees strength and endurance. With the highest ratings possible for wind, hail, and fire, Mini-Batten is ready to weather anything nature throws its way.
