

1/4" Std. Magnetic Hex Driver
For standard wood screws

5/16" Std. Magnetic Hex Driver
For Ultimate, self drilling, and lap screws

Two Sided 1/4", 5/16" Magnetic Hex Driver
For nearly any screw - reversible design

1/4" Long Magnetic Hex Driver
For standard wood screws

5/16" Long Magnetic Hex Driver
For Ultimate, self drilling, and lap screws

1/8" Double Sided Drill Bit
Optional, may be used to drill pop rivet holes

TurboShear HD Drill Attachment
Attaches to corded or cordless drill. Makes quick work of long panel cuts on standing seam, though snips will still be needed for cutting over ribs.

Long Cut Snip
General purpose trim and panel snip with extra long blades

Right/Straight Snip
Specialized snip for right and straight cuts on trim and panels

Left/Straight Snip
Specialized snip for left and straight cuts on trim and panels

Hole Punch for Pop Rivets
Punches through trim and zee-closures in preparation of pop rivets. Compound leverage for easy use.

Metal Cutting Blade
Cooler than regular saw blades, though best for hidden cuts due to burning paint coating.

1" Hand Notcher
Notch lower end of panels in preparation of hemming - compound leverage for easy use.

24" Hemming Tool
Extra long 24" coverage for hemming panel low ends.

20" Hemming Tool
Our most common hemming tool - 20" long with a handle for easier hemming.

18" Folding Tool
A durable hemming tool for any budget.

3" Hand Seamer
For trim finishing - compound leverage and a comfortable handle for easy use.

6" Hand Seamer
For trim finishing and tightening panel hems - compound leverage and a comfortable handle for easy use.

Cut-Resistant Gloves/Sleeves
Standard or insulated gloves - rubber coated. Arm sleeves - made from polyethylene, fiberglass & synthetic fibers. Protects against cuts & nicks.

Roof Fall Protection/Safety Kit
Includes rope with adjustable shock-absorbing lanyard, roof anchor, & safety harness all in a convenient storage bucket

SteelWalker Magnetic Boot
Increases foot traction on steel roofs. Not a replacement for fall protection

Steepgear Roof-Grip Shorts
"Sticky Shorts". Reduce risk of sliding down steep sloped surface by slowing descent. Not a replacement for fall protection
