

Titan-Loc 150 Standing Seam

Lock-Tech 1.5" high standing seam with a hidden fastened flange.

Titan-Loc 150 is a confident, stylish standing seam with 1.5" high ribs at 14.75" apart. A hidden fastening flange and Lock-Tech side laps allow fast installation and lock out wind and water. Titan-Loc 150 offers engineered strength and the right features with available hidden fastened trim options and coordinating accessories.

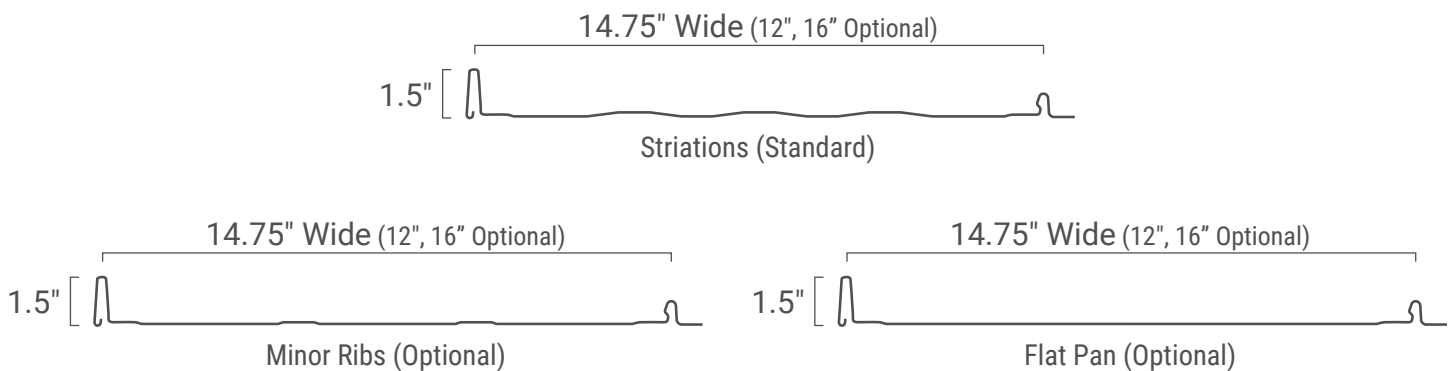

Design & Size

We provide Titan-Loc 150 custom cut to the inch per specifications. Any length is available from 3' up to 45'.

Titan-Loc 150's design features 1.5" high snap-lock style ribs, spaced 14.75" on center. 12" and 16" wide panels are available at some locations. Thickness options include 26 and 24 gauge.

Warranty & Finish

Painted Titan-Loc 150 carries a 50 year paint warranty, 50 year substrate warranty, and 30 year fade/chalk warranty. Unpainted Galvalume carries a 45 year warranty.

The painted option is a baked on enamel paint over primer and Galvalume. The non-painted Galvalume option is 45% zinc and 55% aluminum with a clear acrylic overcoat.

Purpose & Use

Titan-Loc 150 is an advanced Lock-Tech standing seam metal roof system available in traditional, HD, and metallic packages. Unique slim-seam 1.5" locking ribs provide utility strength and confidence that curb-appearance will be through the roof.

Titan-Loc 150 is designed to be installed over solid decking - for open frame installations consider Snap Seam as an alternate.
