

3/4" Corrugated

3/4" Corrugated is a highly adaptable and widely used medium-profile panel suited for applications such as exterior walls, ceilings, siding, and roofing. Built around a high-tensile steel core, 3/4" corrugated panels are engineered to perform in demanding environments. These classic, wavy corrugated panels enhance residential, commercial, and agricultural projects.

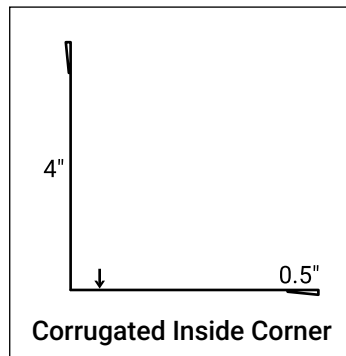

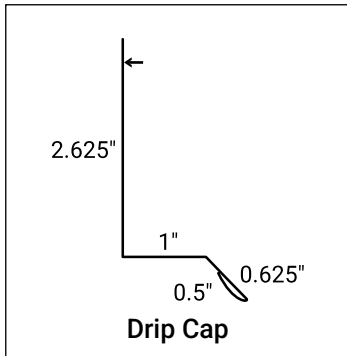

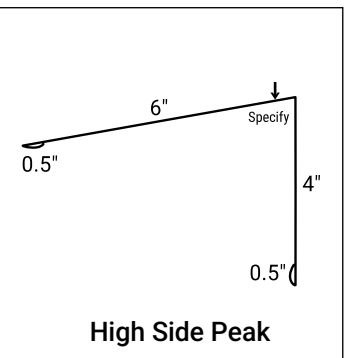

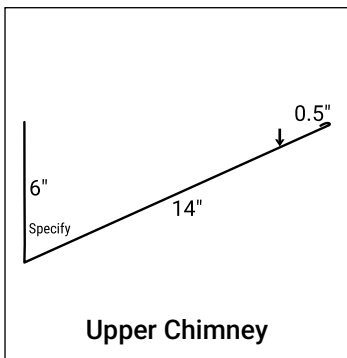

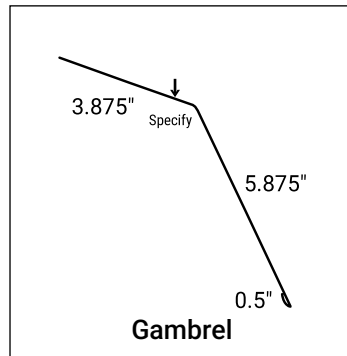

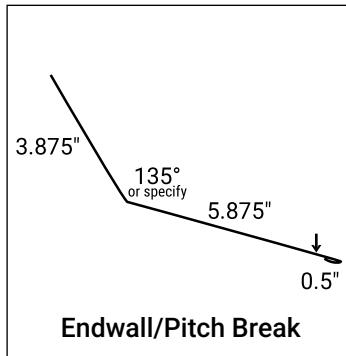

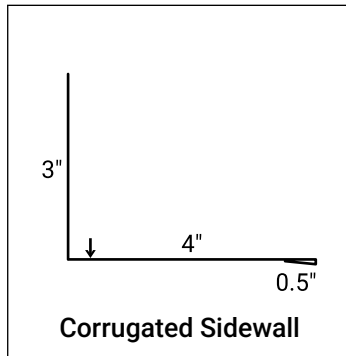

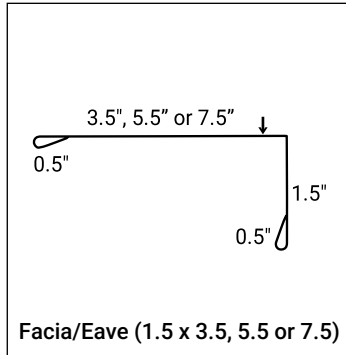

Design & Size

We provide 3/4" Corrugated cut to the inch per specification. 3/4" Corrugated design features .75" high ribs, spaced 2.67" on center. Three profiles are available based on your particular project needs. Ribs can have a normal overlap or 1 to 2 ribs lapped depending on which profile is best for your project. Each profile will provide a 32" coverage width.
